OUR APPROACH

Understanding the unique needs of each individual customer is paramount. Our National Sales Team specializes in identifying ways to reduce your total cost of ownership. Our involvement with all influencers allows us to better understand your critical needs, and ensure the implementation of your defined chemical and paint program — we will deliver results.

STEP 1: AUDIT

Our national team can deliver a complete paint and chemical audit report to assess:

- End-user Site Usage and Product Cross-Over Automation
- Conversion and Standardization Opportunities
- Safety and Compliance Areas of Improvement
- Support and Expertise to Drive Maximum Efficiencies

STEP 2: IMPLEMENT

After a full-site assessment, The Krylon® Products Group Team will provide a comprehensive report with areas of opportunity tailored to your business and help recommend ways to implement:

- Application and Product Usage Training
- 5S Visual Workplace Management Resources
- Address the Critical Needs Identified in the Audit Report
- Procurement and Sourcing Efficiencies

STEP 3: MANAGE

Our proven process will help your company drive future strategy by identifying the specific needs of your paint and chemical program, thus reducing errors, improving efficiencies and reducing your total cost of ownership by:

- Managing Critical Documents
- On-Site Training
- Enhanced Productivity Improvements
- Managed Inventory
