

INTRODUCING CORESOURCE

WE SEARCH. YOU SAVE.

Simplify one-time purchases and time consuming searches with CoreSource — a “search and source” service that lets you **save time**, **avoid setting up an endless number of suppliers** for infrequent use, and **gain critical data analytics** on a historically fragmented, hard-to-control spend.

01 HOW CORESOURCE WORKS

It's super simple. Requisitioners and procurement team members can now text, email or call CoreSource with what they're looking for. We access over 5,000 vendors along with modern searching tools to find your item, price it, and get back to you with price and delivery. No need for you to do the search yourself or set up new suppliers, we take care of all of that.

02 PRODUCT RANGE

Doesn't matter, we can source just about anything. We've sourced jet fuel, snake bite kits, HVAC parts, landscaping services, roller assemblies, rubber hose with crazy specs, clocks, refrigerators, all sorts of MRO supplies. You name it, we'll find it for you.

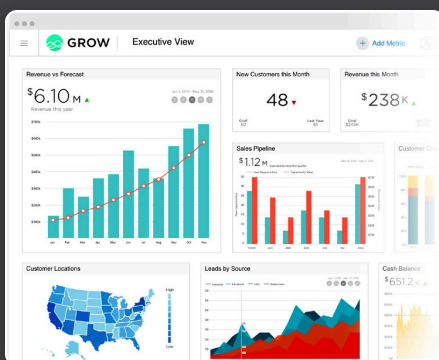

03 TRANSACTION ANALYTICS

CoreSource captures and retains all the data connected with your purchases and can provide you with 24/7 access to that information via our cutting edge GROW dashboards, customized to allow you to view your purchasing history by employee, by department, and by location. GROW displays usage, pricing, and KPI trends over any given period in a very user friendly format.

Gain Visibility with GROW

Your **GROW** business intelligence / AI-powered dashboards provide insight into your sourcing spend.
