

CUSTOM IMPRINTING + EMBROIDERY

PROTECT. PERFORM. PROMOTE.

DOUBLE DUTY

Make your safety gear do double duty for you by choosing custom imprinted PPE. Radians' comprehensive Custom Imprinting Program can turn your PPE into a walking billboard!

Custom imprinting is available for vests, hard hats, glasses, neck cords, jackets, FR Workwear, neck shades and cooling towels. Logos can be up to:

- 2 colors on glasses
- 3 colors on cooling towels
- 4+ colors on vests, jackets, coveralls and hard hats

If logo requires a color that is not one of the stock inks listed, a Pantone® color number should be provided (if no PMS number given, the closest color will be determined) and a color match fee will be required. A layer of white will be added under the custom color for screen printed logos to ensure a good match. Exact color matching is not guaranteed due to printing on plastic or colored fabric.

YOUR ARTWORK, AS IT SHOULD BE

Our in-house marketing team and graphic designers will work with you to re-create your artwork to ensure a quality imprinted product. Our custom imprinting program is:

SCREEN PRINTING

More versatile than traditional printing techniques, Radians can screen print your logo on our Hi-Vis apparel, cooling products and neck cords.

STOCK COLORS Vests, Jackets, FR Workwear, Neck Cords, Cooling

 107 C - Lemon Yellow	 1395 C - Brown	 348 C - Green

Competitive Prices

* If your items are in stock on the date your artwork is approved, the lead time will be 7 days. The lead time for embroidery is 14 days.

ORDERING MADE EASY 1. Order. 2. Approve proof. 3. Goes into production.

DTF PRINTING

DTF printing is a process where designs and logos are printed directly onto a film that can easily transfer onto our Hi-Vis apparel, including Radians T-shirts, polos, rainwear, and jackets.

Unlike other printing methods, DTF printing doesn't require a separate transfer paper or special inks. Instead, it uses a combination of digital printing technology and heat to create high-quality prints with vibrant colors.

UNLIMITED COLORS

HEAT TRANSFER

Heat transfers allow for an extremely detailed and brilliant image of your logo in full color. Your logo is permanent, resists fading and is not compromised by normal washing and cleaning. Heat transfers are more comfortable than vinyl transfers.

UNLIMITED COLORS

EMBROIDERY

Embroidered logos are sleek, professional, durable and represent one of the most popular branding methods to stand out from the crowd. Radians can provide personalized, customized, and on-site digitized embroidery services. With access to hundreds of colorful threads, Radians can stitch your logo or design on to select RadWear high-visibility apparel, including jackets, FR workwear, polos, and T-shirts made from solid fabrics. Our state of the art embroidery machines stitch up to 1,200 stitches a minute, and with 15 needles, we can get your job done quickly and incorporate up to 15 colors in any one design. **NO SET-UP FEES.** Lead time is 14 days after receipt of approved artwork and order for in-stock colors and product.

HIGH-SPEED INDUSTRIAL BAGGING MACHINE

Radians strives for continuous improvement, so that's why we recently invested in a new industrial bagging machine to speed up the process of re-packaging custom imprinted apparel, which improves order turnaround time. This modernization and high-speed automation brings our customers better products in a consistent and expeditious manner. Our new automated bagging system improves product quality, cycle time, and productivity in general.

QUICK. CUSTOM. IN HOUSE.

Branding PPE with your logo, company name, or safety message not only elevates and differentiates your brand, but it offers these value-added benefits too:

YOUR PPE protects people and advertises your business and brands

YOUR COMPANY exudes professionalism and a greater sense of corporate identity

YOUR EMPLOYEES are easily recognizable and feel part of a team

USA-BASED IN-HOUSE SERVICES FOR RELIABLE & CONSISTENT RESULTS

At Radians, we are committed to maintaining our custom imprinting and embroidery services in-house, proudly based in the U.S.A. Unlike other PPE manufacturers, we manage all aspects of production at our facilities in Tennessee & North Carolina. This enables us to meticulously oversee and control every detail of your request, guaranteeing top-notch quality and unmatched turnaround times.
